SUMMARY

Recent **Information Systems graduate** and a **Frontend Developer** with hands-on experience in **web and mobile applications**, CRM systems, and business application development. Skilled in **JavaScript frameworks** (React, React Native, Node.js), **Firebase**, and **Microsoft Power Platform** (Power Apps, Power Pages, Power Automate). Passionate about building intuitive user interfaces, automating workflows, and developing solutions that improve business processes.

EDUCATION

Bachelor of Applied Science in Information Systems (B.A. Sc. IS) **Aug 2020 - May 2024**
University of Doha for Science and Technology | Doha, Qatar

RELEVANT EXPERIENCE

Frontend Developer **July 2025 - Present**
PitchPro

- Developed **responsive web interfaces** and **interactive UI components** using **React** and **Tailwind CSS**.
- Integrated frontend components with **Firebase** to create **dynamic, data-driven dashboards** and content workflows.
- Built interactive UI features including **dynamic forms, content previews, and media upload components**.
- Implemented **secure authentication flows**, markdown rendering, and media upload pipelines for a content publishing system.
- Contributed to backend logic, ensuring seamless integration with dynamic data sources
- Audited** and improved **WCAG 2.1 AA accessibility compliance** by resolving issues related to semantic HTML structure, ARIA attributes, form labeling, contrast ratios, and page navigation.
- Collaborate using **Git-based workflows** to maintain clean, scalable production code.

Information Systems Intern **Feb 2025 - Jun 2025**
Ministry of Communications and Information Technology (MCIT)

- Trained on and **developed internal business applications** using **Microsoft Power Platform** (Power Pages, Power Apps, Power Automate, SharePoint, Power BI) and **JavaScript**.
- Built **dynamic frontend components** in Power Pages, connecting UI elements to SharePoint data sources.
- Designed SharePoint data architecture** to support and **built dynamic, user-friendly frontend components** with Power Pages and **JavaScript**;
- Automated workflows** using Power Automate, including HTTP-triggered flows and JSON parsing.
- Led a **3-member intern team as Project Lead**, overseeing technical development, documentation, and integration.
- Authored** a handover **Business Requirements Document (BRD)** to support future development and maintenance.

IT Support - Intern **May 2024 - Aug 2024**
Elegancia Healthcare / MMCH (Military Medical City Hospital)

- Developed and optimised **Robotic Process Automation (RPA) solutions** using **Power Automate** to improve workflow efficiency and reduce manual tasks in healthcare operations.
- Assisted in **deploying** a new **Oracle healthcare system**, delivering training and ongoing support to medical staff during the Go-Live phase, ensuring smooth adoption.
- Automated data management** with Power Automate and created flowcharts to improve documentation.
- Provided daily **IT support, troubleshooting** hardware and software issues across multiple departments.

ADDITIONAL EXPERIENCE

Service Ambassador - Young Leisure Professional

June 2025 - Sept 2025

Leisure

- Generated actionable insights by analyzing guest feedback from survey responses and on-site observations, directly informing strategic updates to the Theme Park Playbook.
- Contributed to concept development for escape room and theme park proposals, aligning cultural relevance and innovative design with park strategy.
- Developed and presented strategic ideas benchmarked against global best practices.
- Collaborated with team members and park staff to integrate findings into the final assessment report and presentation, enhancing both guest engagement and business sustainability.
- Served as a committee member for the Leisure Awards Night, supporting event coordination and execution.

Customer Service and Facilities Assistant

Sept 2022 – Aug 2024

University of Doha for Science and Technology – Sports & Wellness

- Provided customer service to students, faculty, and staff at sports and wellness facilities, maintaining records of facility usage and equipment inventory to ensure efficient operations.
- Promoted department programs and encouraged participation, resulting in increased engagement and activity in sports and wellness offerings.
- Explained facility rules and regulations, overseeing lounge and fitness areas to ensure a safe and compliant environment for all users.
- Managed event setups and breakdowns, ensuring the timely preparation of equipment for classes, activities, and events, contributing to smooth facility operations.

Commentary Assistant - Internship

Oct 2022 – Dec 2022

Host Broadcast Services (HBS) (FIFA WORLD CUP 2022)

- Assist the Commentary team in setting up technical and non-technical equipment at commentary positions, ensuring readiness for seamless broadcasting.
- Tested and adjusted commentary units pre-match, collaborating with commentators to ensure optimal functionality and performance.
- Assisted commentators during matches, resolving technical or operational issues to maintain live coverage.
- Worked with the Commentary Control Units (CCUs) assisting the Commentary Manager, ensuring that all commentary feeds are transmitted to the correct broadcaster.

SKILLS

Technical Skills:

- **Core Competencies:** Mobile & Web Development, Project Management, UI/UX Design
- **Microsoft Power Platform:** Power Apps, Power Automate, Power BI, Power Pages
- **Programming & Frameworks:** Python, JavaScript, TypeScript, PHP, Java, HTML/CSS, React, React Native, Laravel, Flask
- **Databases:** Oracle SQL, MySQL, MongoDB, Firebase
- **Tools & Design:** GitHub, Postman, Figma, Burp Suite, Process Mapping Tools (Draw.io, Lucidchart, Visio)

Language Skills:

- English, Swahili, Arabic

PROJECTS

Nomad Manager - AI-Enhanced CRM | Capstone Project

2024

Python(Flask) React, Firebase, MongoDB

Developed an AI-driven CRM system to derive insights from customer interactions. Utilized machine learning for advanced reporting, automation, and real-time analytics. Applied RFM analysis and AI profiling to create customer segments for targeted marketing and personalized recommendations. Implemented a system to analyze customer satisfaction, proactively addressing service issues to reduce churn and improve retention.

[Link to demo](#)

Budget Buddy | Money Management Mobile Application

2024

React Native, Firebase, Expo

Developed a mobile app to help users track income, expenses, and manage budgets by categorizing transactions. The app provides real-time financial insights, automating money management for improved efficiency. Features include customizable budgeting tools and detailed spending analysis to help users make informed financial decisions.

[Link to demo](#)

MindPulse - Mobile Quiz Application

2024

Figma

Designed the UI/UX for a mobile quiz application that enables users to create and play quizzes. Focused on delivering an intuitive and engaging interface, enhancing user experience through clear navigation and interactive elements. The design includes user-friendly features for quiz creation, participation, and results tracking

ACHIEVEMENTS

Build for QSTP Hackathon

May 2026

The sole winning team out of a 24-hour hackathon hosted by QSTP. Designed and pitched Orbit — an AI-powered internal portfolio intelligence platform built to help QSTP proactively track and amplify startup milestones across their incubation portfolio. Delivered a working demo, PRD, and full pitch deck within the time limit.
